WORK EXPERIENCE

DuroNetworks – GETRIPAY **Frontend Engineer**

July 2020 –Date

Getripay is a subset of DuroNetworks that creates financial solutions for users. It has the features of bank transfers, bill payments like utility bills, cable TV, airtime, etc., loan and many others. As the front-end developer, my core activities include:

- Developing unique user experiences that drives interaction, using JavaScript (React), from scratch.
- Building the user interface for a financial technology application (FIN-TECH) from concept through deployment, with a responsive, mobile-first approach.
- Build reusable code and libraries for future use.
- Ensure the technical feasibility of UI/UX designs.
- Optimize application for maximum speed and scalability.
- Assure that all user input is validated before submitting to back-end.
- Collaborated with team members to implement new feature developments.
- Participating in code reviews

Grandilo Technology **Web Development Intern**

Dec 2019 –March 2020

- Used HTML, CSS, JavaScript, Vue.JS, Firebase, Postman, API for developing dynamic single page application.
- Developed, enhanced, maintained the front end functionality of websites.
- Applied media queries to create responsive website across different size of screens.
- Involved in using GIT, for project management and version management.
- Implemented FIREBASE as a storage for a study abroad website.
- Used axios to call APIs and postman for testing of the APIs.
- Built a travel agency website.

Cloud-Soft Systems Network Nigeria
Intern Website Developer

Dec 2017 – Feb 2018

- Built and uploaded functioning websites using WordPress.
 - Successfully built and published over 4 websites, for a diverse range of clients.
- Used CSS extensively in the development of website.

CERTIFICATIONS
